

How to Access the MyWTC Website

The MyWTC website is the main connection for students to access grades, register for classes, pay tuition, and much more. To access this important website:

- Log on to MyWTC, <https://my.wtc.edu>.
- **User Name** is usually your first name.last name (ex. john.doe). In some cases it can contain a middle initial.
- **Password** is your student ID number, unless you changed that code.
- Once accepted at WTC, you will receive an email with your username and password. This will go to the email you submitted on your application for admission.
- If you forget your username and/or password you can go to ww2.wtc.edu to have it email to you.
- Once you are logged in, click on “Academics”

All final grades are posted on this site. Some instructors also post grades throughout the semester so you can have an up-to-date grade average. If your instructor does this, you will have an “Avg” grade beside that course listed in the *All My Courses* section.

If you have any problems accessing the MyWTC site, contact:

support@wtc.edu

If you are an online student, you can also contact the WTC online advisor, Korie Allen, at kallen@wtc.edu.
