

CLEP (College Level Examination Program®) Testing

Western Texas College offers college credit by examination through the College Level Examination Program (CLEP). At WTC credit is awarded only for CLEP subject examinations and after the student has successfully completed one semester with us. Students who plan to attend any college or university that honors CLEP examinations may take them at WTC.

The testing center at Western Texas College is located in the Counseling Center in Building 2 Room 104. **Testing is by appointment only.**

To see a list of available CLEP tests refer to the [CLEP website](#).

Before coming to WTC for your CLEP exam you should create and manage your personal account through the [My Account](#) registration portal on the CLEP website. On this site you will register for the test you want and pay for the test. You will print a voucher which you should bring to the WTC testing center along with a current photo ID.

Special Accommodations: WTC requires verification of a disability in order to provide a nonstandard test administration. Students with disabilities will be required to provide acceptable documentation (e.g. signed statement from an appropriate professional (a person licensed or certified to diagnose this student's disability) that describes the disability and verifies the need for testing accommodations. Students who receive no routine accommodations from their schools for instruction or assessment are not eligible for any accommodations. All supporting documents must be current (no older than three years) and must be presented on official letterhead from a licensed or certified professional appropriate for evaluating the candidate's disability. CLEP reserves the right to request further verification of the professional's credentials and expertise in relation to the recommendation and the right to retain an independent expert to evaluate the candidate's documentation of disability. Special Accommodations may require extra preparation time and may require a delay in scheduling the actual test administration. Please contact Counseling at 325-574-7621 with any questions related to special accommodations.
