

Western Texas College
Environmental Policy
November 2016

Western Texas College will conduct all operations in an environmentally responsible manner.

Environmental Initiatives

Western Texas College will maintain the following standards:

- Reduce waste and minimize environmental impact.
- Meet compliance requirements for all Federal and State environmental regulations.
- Encourage continued participation in recycling and sustainability programs.
- Decrease energy demands through increased efficiency and conservation.
- Minimize the use of toxic substances on Campus property and seek alternates where available.
- Educate faculty, staff, and students regarding Western Texas College's environmental commitment.
- Continue to improve environmental performance through its Environmental Management System.

Barbara R. Beebe, Ph.D.

President, Western Texas College
